- Leaderboard auto-update hota hai

■ User Management

User List Dekhna

Sabhi registered users ki list dekho — naam, email, tokens, registration date sab ek jagah.

- Search by name/email
- User ka wallet balance dekhna
- Registration date aur activity check karna

User Ban / Unban

Agar koi user fraud kare ya rules to■■, to admin use ban kar sakta hai.

- Temporary ya permanent ban
- Ban reason note karna
- Unban bhi admin ke haath mein

User Profile Dekhna

Kisi bhi user ka pura profile check karo — joined tournaments, win/loss record, wallet history.

- Tournament history
- Wallet transactions
- Account details

■ Wallet & Token Management

User Wallet Dekhna

Har user ka token balance aur transaction history admin dekh sakta hai.

- Token balance check karna
- Incoming/outgoing transactions
- Suspicious activity flag karna

Tokens Add / Deduct

Admin manually kisi user ke tokens add ya deduct kar sakta hai — support cases ya corrections ke liye.

- Reason ke saath tokens add/deduct
- Transaction log automatically save hota hai
- User ko notification jaata hai

Redeem Code Generate

Admin specific user ke liye redeem code generate kar sakta hai jise user app mein use kar ke tokens paa sakta hai.

- Email se user dhundho
- Token amount set karo
- Code generate hota hai: RDM-XXXXXX format
- Code sirf usi user ke liye valid hota hai

■ Announcements & Notifications

Push Notifications Bhejna

Admin sabhi users ya specific users ko push notification bhej sakta hai — new tournament, offers, updates ke liye.

- All users ya targeted notification
- Title aur body customize karna
- Turant ya scheduled send
